

NO MORE BATTLESHIPS.

**Fighting Craft Of The Future To Be
Submarines And Torpedoes.**

Washington, April 25.—It has become evident in the opinion of those familiar with naval matters, that the time for constructing battleships has passed.

The fighting craft of the future must be submarine boats and torpedo boats, with a few high-speed cruisers. The change in sentiment has been hastened by the developments of the Eastern war.

A ROAST FOR ROCKEFELLER.
